Continuation of 3. NOTE: The claims were rejected in the Final Action as failing to comply with the written restriction requirement, based upon the certified translation of the specification originally provided. The amendment to the specification to correct an error and provide support for the claims necessitates further consideration and/or search of the claims which now may be supported by the specification.

Continuation of 11. does NOT place the application in condition for allowance because: The applicant's arguments are moot, as they are directed towards the amended application, where the amendment has not been entered by the examiner.
